The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/520,166	Applicant(s) PANDEY ET AL.	
	Examiner Patricia L. Morris	Art Unit 1625	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 August 2007.

DETAILED ACTION

Claims 1 and 2 are under consideration in this application.

Claims 3-22 are held withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142(b). Claim 5 was inadvertently included with Group I and will be held withdrawn from consideration because formula (13) is not recited anywhere in claim 1 and is drawn to another process.

Election/Restrictions

Applicants' election with traverse of Group I filed on August 20, 2007 is acknowledged. The traversal is on the grounds that there is no burden at all on the examiner to search all the inventions since the PCT Office did not restrict the claims. This is not found persuasive for the reasons clearly set forth in the previous Office action. Moreover, the PCT Office may have chosen not to give any lack of unity of inventions. Further, applicants have failed to advance any cogent reasons as to why the inventions do not lack unity of invention. Applicants incorrectly allege that claims 19 and 20 are not grouped correctly. This is not found persuasive because the claims are not even proper and fail to conform to US practice and are not even dependent on a compound claim. Claim 19 appears to be a hybrid product by process claim, however, the claim appears to be an alleged composition claim. Further, applicants' own search report states that claim 19 is not novel from the prior art. Pioglitazone fails to make any contribution to the prior art. The claims will NOT be rejoined because applicants have elected a process of making which is not the same scope as the claimed compounds.

The lack of unity requirement is deemed sound and proper and will be maintained.

Claim Rejections - 35 USC § 112

Art Unit: 1625

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 fails to clearly the process because it fails to recite the reaction conditions, *i.e.*, reagents, solvents, temperature, etc. Further, the term reducing fails to describe a process and is an obvious process under 35 USC 103.

Regarding claims 1 and 2, the phrases "such as", "preferably" and "more preferably" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

The plural 's' on "thiazolidinediones" and "salts" makes claim 1 read on mixtures rather than specific compounds.

The claims measure the invention. *United Carbon Co. V. Binney & Smith Co.*, 55 USPQ 381 at 384, col. 1, end of 1st paragraph, Supreme Court of the United States (1942).

The C.C.P.A. in 1978 held "that invention is the subject matter defined by the claims submitted by the applicant. We have consistently held that no applicant should have limitations of the specification read into a claim where no express statement of the limitation is included in the claim": *In re Priest*, 199 USPQ 11, at 15.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 1625

Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
